

Better for all.™

8 oz & 16 oz PHBH Cups

100% Bio Based – Renewable – Petroleum Free – Made in the US
 First of a line of pure PHBH compostable cups.

Unique shapes and color aids venues with waste stream sorting.
 Designed to be disposed of with food waste, fully compostable in aerobic and anaerobic composting facilities, as well as in landfill.
 16 oz cup securely fits a standard 98mm straw, strawless or domed lid.
 Certified Home and Commercially Compostable.

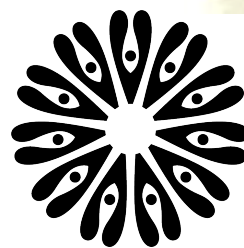

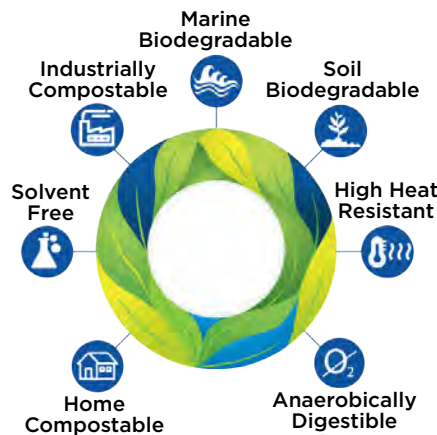

Temperature tolerant 32-220 degrees Fahrenheit—a marked improvement over PLA. Dishwasher safe!
